(For BLM Use) Serial No. U67-N91-10

NOTICE
OR

PLAN OF OPERATIONS

(For Operations Proposed Under the 43 CFR 3809 Regulations)

Instructions: Circle "Notice" (above) if proposed mining activity within the project area will disturb a total of five (5) acres or less during the calendar year. Circle "Plan of Operations" if disturbance will exceed five acres during the calendar year or if operations are within one of the specially designated areas described in 43 CFR 3809.1-4(b). Complete the form in as much detail as possible. Additional sheets may be used if necessary. Use maps or sketches where appropriate. A review of the 43 CFR 3809 regulations should be conducted prior to completion of this form.

Operator Information:

Name Joseph O. Kingston, Bill Stoddard,
George K. Fadel, W.J. Owen, I.A.
Nielsen and Carl E. Kingston

Address

c/o Carl E. Kingston
53 West Angelo Avenue
Salt Lake City, Utah 84115

Telephone

(801) 486-1458

Claimant Information (If different than operator):

Name

same

Address

Telephone

RECEIVED
AUG 05 1991
DIVISION OF
OIL GAS & MINING

Claim Information (Claim names, circle claim types (Lode, Placer, Mill Site, Tunnel), BLM Serial No.): UMC98432-98436

Mineral Life Claim, Burnham Placer Claim, Batrolatum Placer Claim,
Von Elm Placer Claim and Blue Rock Placer Claim

Location of Proposed Activity (i.e. Township, Range, Section):

Township 23 South, Range 6 East, Section 3, SLBM.

Describe Existing Disturbance and Structures or Indicate on Maps or Sketches (Mine and Mill Facilities, Workings, Tailings, Dump Areas, etc. It may be to your advantage to document existing disturbance with photographs):

Some mineral deposits have been faced up for a distance of about 300 to 350 yards. No structures have been constructed. See attached map.

Proposed Operations: Describe the entire proposed operation, including all surface disturbing activities (road construction, drilling, trenching, backhoe and bulldozer exploration, mining, waste disposal, etc.) List all mechanized earth-moving equipment to be used during the operation and state if explosives are to be utilized. Describe and furnish a map or sketch, when applicable, showing the locations and size of areas where surface disturbances are proposed, including existing and/or proposed routes of access. Calculate the total acreage proposed for disturbance (1 acre = 43,560 sq. ft.)

The proposed operations include grading an existing access road to the mineral deposits, extending the road along the face of the deposits approximately 100 yards, and minimal exploration at the site with a bulldozer. The mineral is extracted only in small amounts throughout the year by the operators. Extraction may vary from 12 tons to 125 tons per year. A map is attached showing the access road which is graded annually, and the proposed extension of the road along the face of the mineral deposits. The total acreage proposed for disturbance is less than one acre.

Period of Operation: From June, 1991 To July, 1991 (cat work)

Proposed Reclamation: Describe the proposed reclamation procedures and other measures to be taken to prevent unnecessary or undue degradation of the lands, including measures to be taken if a period of nonoperation is anticipated.

The surface disturbance will be minimal. Proposed reclamation would include
reseeding the disturbed area where necessary, and possibly installing silt fences
or bales of straw to prevent erosion.

I will complete all necessary reclamation of areas disturbed during the course of my operations to the standards described in 43 CFR 3809.1-3(d) and that reasonable measures will be taken to prevent unnecessary or undue degradation of the federal lands during operations.

Signature of Operator: *Paul E. [illegible]* Date *July 31, 1991*

NOTICE TO OPERATORS:

1. A notice submitted in relation to the 43 CFR 3809 regulations does not require approval from the BLM. However, notification of such activities shall be made at least 15 calendar days before commencing operations. Receipt of a notice will be acknowledged promptly. Approval of a submitted plan of operations is required from the BLM prior to commencing operations. The BLM will promptly acknowledge receipt of a submitted plan and will notify the operator of the status of the plan within 30 days of receipt of the plan.
2. Submittal of a notice or approval of a plan of operations does not constitute certification of ownership to any person named as owner herein, nor does it constitute recognition of the validity of any mining claims named herein.
3. Generally, information that could be considered proprietary is not necessary to fulfill notice or plan of operations requirements. However, information and data submitted and specifically identified by the operator as containing trade secrets or confidential or privileged commercial or financial information should be attached to a separate page and cited in the text of the notice or plan of operations. This information will be filed separately and will not be available for public inspection.
4. Failure of operator to file a notice or a plan of operations, as required by the 43 CFR 3809 regulations, will subject the operator to being served a notice of noncompliance or enjoined from the continuation of such operations by a court order until such time as a notice or plan is filed with the BLM.
5. The completed notice or plan of operations should be filed with the appropriate resource area office. Their addresses are as follows:

San Rafael & Price River Resource Areas
900 North 700 East
Price, Utah 84501

Grand Resource Area
P. O. Box M
Moab, Utah 84532

San Juan Resource Area
435 North Main Street
Monticello, Utah 84535

LEGEND

- Blue existing access road on State land
- Green existing access road on B.L.M. land
- Brown existing road along face of mineral deposits
- Red proposed road extension on B.L.M. land along face of mineral deposits
